

October 8, 2010

Hi Friends of Gabriel House,

Last week was our every 6-month dental unit visit from Mexican Medical Ministry. This is no small fete; it takes coordination and timing.

Thanks to several dedicated people who make this happen. Dr. Cesar Tamez administers anesthesia to those children who cannot tolerate the procedure while awake. Kristy Libby is the assisting nurse. Craig Libby and son Josh help to transport the children to and from the unit. Dr. David Cervantes, Dr. Erica Cervantes and Dr. Maria Guadalupe Parra were our dentists. Dave and Lynn Johnson drive the stocked dental unit to Ensenada from San Vicente and assist with the dental procedures.

This time there was another story behind the scenes that begged to be told.

Josh and Katie Libby, children of proud parents Craig and Kristy Libby, sold lemonade to earn money which they used to buy chicken for the children of Gabriel House. Craig also spent several hours in the scorching heat of last week building the lemonade stand. Here are the pictures of some of God's youngest missionaries in action.

I hope this story blesses and inspires you as much as it did us.
God bless,
Ted and Renie
